

Print via USB

1. After identifying yourself on the device (using your card or manually via Username and Password), insert your external storage device (USB) into the slot on the touch panel:

2. On the home screen, access the “Funciones de dispositivo” option:

3. On the next screen, press the “Usar funciones de dispositivos” button:

Usar funciones de dispositivo

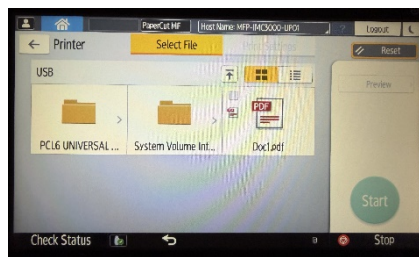

4. Next, you will access the device’s native functions. On the following screen, press the “Print/Scan (Memory Storage Device)” button.

5. On the next screen, press the “Print from Storage Device” button to view the files stored on your external device:

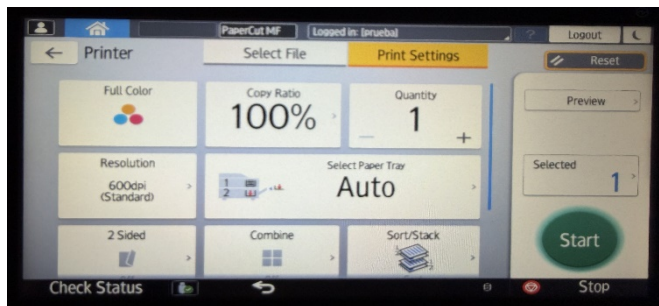

6. Finally, select the file you want to print and press the “Start” button to begin printing:

 **NOTA**

- In the “Print settings” button, you can choose from the available settings:

- Color / Black and white
- Number of copies to print of the document
- Paper tray selection
- DPI (resolution)
- Single-sided / Double-sided
- ...

- Always use this button to safely remove the storage device
