

SYLLABUS

1. COURSE DESCRIPTION

Degree:	Environmental Sciences
Course:	Company Internship and Professional Practice
Module:	Environmental knowledge and transversal techniques
Department:	Physical, Chemical and Natural Systems Molecular Biology and Biochemical Engineering
Academic Year:	2017/18
Term:	Second
ECTS credits:	6
Year:	4th year
Type:	Optional
Language:	Spanish

Course Model:	Professional Practice	
a. Working hours in the company and information days on the part of the students about the work related to the company:		120 h
b. External internships reports and face-to-face tutoring:		30 h

SYLLABUS

2. LECTURER

Coordinator	
Name:	Eva M^a Valero Blanco
School:	School of Experimental Sciences
Department:	Molecular Biology and Biochemical Engineering
Area:	Nutrition and Bromatology
Office Hours:	Contact previously through e-mail
Office:	22.2.01c
E-mail:	evalero@upo.es
Phone:	954 977894

SYLLABUS

3. TOPICS

Due to its nature, this course does not have any syllabus. Each student develops 120 hours of internships in a company with competences in different aspects of environmental character, thus adjusting its activity to that of the company. The variety of companies in which students complete these practices is such that it is necessary to follow up on each student. Therefore the subject includes a part of academic tutoring, which will be developed through group sessions and individualized sessions, in which the academic tutor counsels the students.
