

SHORT-TERM PROGRAMS

UPO's International Center organizes a number of programs in the summer for students wishing to improve their Spanish language skills. Programs are usually three weeks in length and run from late May to mid-June and from mid-late June to early July. Please refer to our website for current and future courses.

Tailor-made programs may also be organized upon request for groups of students during the summer and throughout the academic year. Past short-term programs have included courses in Spanish Culture, Spanish Conversation, Spanish Cinema, Art History and the European Union.

The Center also offers one and two week intensive Spanish language courses in September and January.

THE HISPANIC STUDIES PROGRAM

The Hispanic Studies Program offers Spanish language courses at six levels as well as semester-long courses taught both in Spanish and in English in areas such as business, culture, economics, history, literature, political science, psychology and many others. The UPO is also one of the first universities to offer science courses in English with a lab component in organic chemistry, microbiology and anatomy & physiology.

The program includes a number of social/cultural activities throughout the semester such as visits to nearby towns, hiking trips, sports activities with Spanish students, etc. Students are also able to request a Spanish exchange partner (*un intercambio*) and volunteer to teach English to Spanish children in local schools.

THE UNIVERSITY INTEGRATION PROGRAM (PIU)

The Integration Program is designed for students with highly advanced Spanish language skills who wish to integrate themselves into a Spanish university. With the guidance of the staff at the International Center, students enroll directly in classes with Spanish students. The University offers degree programs in the following areas: Business Administration, Environmental Science, Biotechnology, Human Nutrition and Dietetics, Humanities (Geography, History, Translation), Labor Relations, Law, Political Science, Social Work, Sociology and Sports Science.

For Business majors: If you are a business major but are not fluent in Spanish, there are a number of business courses available in English with Spanish students as well. Please refer to our website for a list of available courses.

SPANISH LANGUAGE & CULTURE PROGRAM

This program is especially designed as an immersion program for students with one or two semesters of university level Spanish. During the fall semester, students will build grammar skills in the Spanish language course, increase their speaking and writing skills in the conversation and the reading & composition courses and learn about culture in the Spanish culture course. As this program is only offered in the fall semester, students who wish to remain in Seville for the academic year may continue the following semester in the Hispanic Studies Program which offers numerous courses in areas such as business, economics, history, political science and Spanish language, among many others.
